No scions or rooted cuttings sold on patented plants.

You will note that quite a few of our plants have been dropped to a cheaper price group again this year! For example, "Pink Ice" has been moved from the most expensive to the cheapest group, Etc.

Also, but in only a few instances, we have had to raise some, according to our supply and the merits of the plant.

We try to list accurately all the plants we have each year, but it is entirely possible that we have left off some of the sizes, or even some varieties. If you don't see it, contact us, we just might have it!
